

ONGC PUBLIC SCHOOL NERAVY - KARAIKAL

Vinayaka Mission Hospital, Karaikal conducted an awareness programme for the students of class XI to acknowledge the importance of First Aid in saving lives in everyday and crisis situations.

Dr.Saravanan, Professor and HOD of Orthopedics department delivered a very well-articulated speech, emphasizing the significance of the First Aid. Through his speech, he expressed the concern that millions of people are hurt or killed from injuries every year because adequate and timely assistance is not provided to them.

He explained that the primary goal of First Aid is to protect life and keep the condition from worsening. He shared some first aid tips to be given at the time of wasp-sting and sprained ankle. At the end he wrapped his orientation along with his juniors by emphasizing the importance of taking basic first aid and learning the use of a first aid kit. People should be encouraged to utilize this day in a positive way by learning and spreading the importance of first aid. This will help pave the way for a healthier and stronger world to breathe in.
