

ONGC PUBLIC SCHOOL NERAVY - KARAİKAL

RESOURCE PERSON: Dr.S.Bhuvaneshwari Center Head, Puducherry University, Karaikal Center, Former Registrar Thiruvavur Central University on the topic Positive attitude and self-development.

The orientation programme began with an introduction to the concept of positive attitude and its importance in teaching. Teachers were made aware of the fact that having a positive attitude can have a significant impact on student learning outcomes, and that it can help create a positive learning environment in the classroom.

The next session focused on the importance of updating knowledge of a teacher. Teachers were shown how to stay upto-date with the latest trends and best practices in teaching, and how to use this knowledge to improve their teaching practices. They were also given an overview of various professional development opportunities, such as attending workshops, seminars, and conferences, that can help them, stay current and relevant in their field.

The session on professional growth highlighted the importance of continuous learning and development. Teachers were given examples of how to improve their teaching practices, such as using technology to enhance student engagement and using differentiated instruction to meet the needs of diverse learners. They were also shown how to use self-reflection and evaluation to identify areas for growth and improvement.
