

# ONGC PUBLIC SCHOOL NERAVY - KARAIKAL

A Teachers' Enrichment Programme on Sustainable Development Goals (SDGs) was conducted at ONGC Public School on 17.06.23. The workshop aimed to enhance the understanding of teachers regarding the various aspects of SDGs and their significance in shaping a sustainable future. The resource person for the program was Smt. Gayathiry M.A., M.A., M.B.A., an esteemed expert in sustainable development and a representative from Laurier Consultancy Services LLP. This report provides an overview of the enrichment program, highlighting its objectives, topics covered, and the impact it had on the participating teachers.

Smt. Gayathiry M.A. provided an overview of the SDGs, their history, and their significance in addressing global challenges. The resource person emphasized the inter linkages between different SDGs and explained how progress in one goal can positively impact others.

The workshop included the sharing of best practices and case studies from around the world, demonstrating successful initiatives and innovative approaches to address the SDGs.

It is expected that the knowledge gained during this enrichment program will influence teaching practices and contribute to the broader agenda of sustainable development.
